

Manufacturer of INDUSTRIAL WASHERS

Specialist cleaning and degreasing of parts

PN-EN ISO 9001:2015

CASTOR Unia Gospodarcza Sp. z o.o.

Designs and manufactures washers based on long-term experience.

Offers appropriately selected industrial chemistry for washing, degreasing, passivation processes and other operations

The devices meet European Standards, in accordance with Machinery Directive 2006/42/EC.

PN-EN ISO 9001:2015

VACUUM WASHERS

- solvent
- water

Washing, rinsing, drying processes
in reduced pressure even up to

1 mbar

System for recovery and cleaning of washing baths through constant vacuum distillation

VACUUM-CAST series devices are subject to patent protection
- patent No.: 194638, 204670, 217042

Hermetically closed system
- no emission of harmful vapour

Sewage-free operation system
- no bothersome, expensive waste

Guaranteed high, repeatable cleanliness and cleanliness degree of detail meeting the required cleanliness and cleanliness class

Specialist cleaning and degreasing of parts

ULTRASONIC WASHERS

- automatic
- manual

Innovative ultrasonic systems with frequency of even up to **1 MHz**

Ultrasonic, multi-frequency modular generators and converters

Ultrasonic converters by **Weber Ultrasonics**

- rod (SONOPUSH)
- submergence (SONOSUB)
- plate (SONOPLATE)

combine innovativeness with high quality and above-average effectiveness.

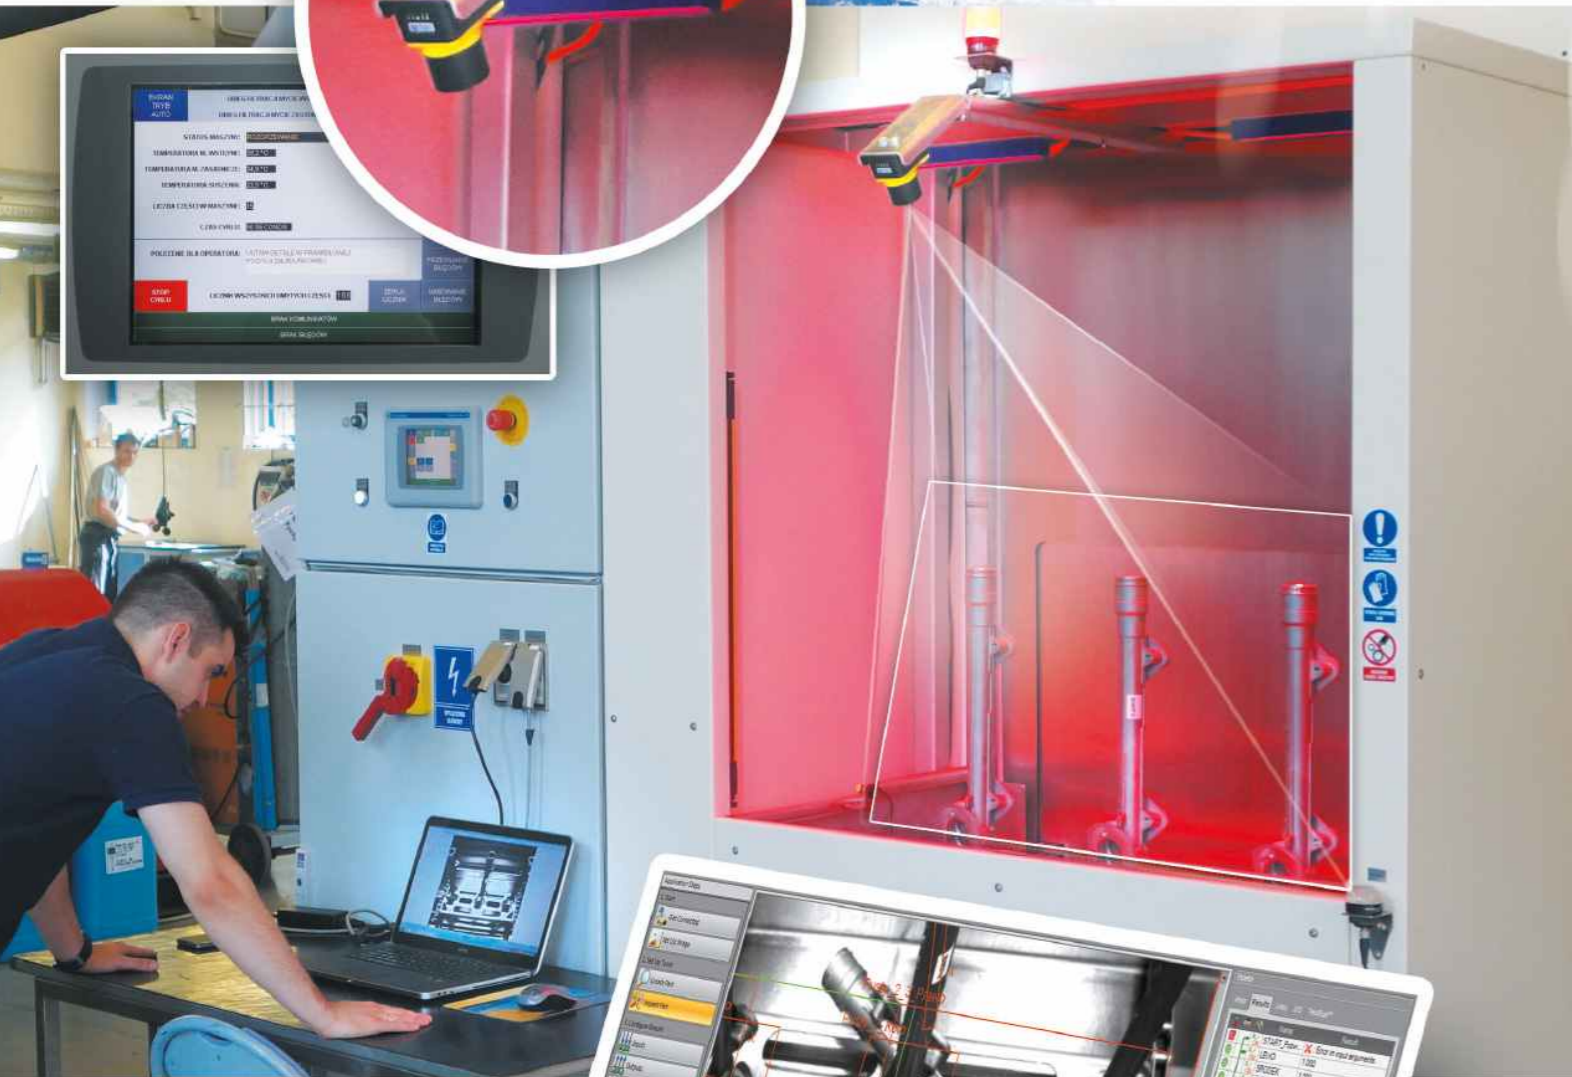

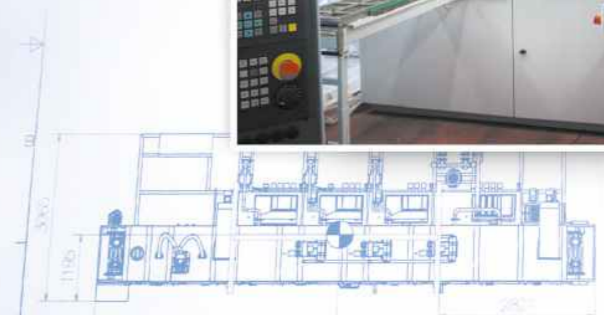

The ultrasonic generators by Weber Ultrasonics are distinguished by digital generation and adjustment of ultrasonic vibration frequency, constancy of frequency, amplitude and power not achieved so far and the function of intervals.

TUNNEL WASHERS

- pass-through
- cyclic

Design and workmanship according to individual needs and assumptions

- Automation of technological lines
- Constant control of particular process parameters
- Integration with existing production lines

SPRAYING WASHERS

- multi-degree with a vertical
bin rotation axis

- multi-degree
with a horizontal
bin rotation axis

- Wide range of additional equipment
- Adaptation to next production stages
- Intuitive and simple operation of PLC panel with touch-sensitive control panel

SPRAYING WASHERS

- single-degree

Simple and effective
spraying washing
for diverse uses

- Wide range of additional equipment
- Adaptation to next production stages
- Intuitive and simple operation of PLC panel with touch-sensitive control panel
